I'm a fresh graduate and ambitious front-end developer with a passion in creating user friendly and visually appealing front-end solutions. I am eager to continuously learn and excited to utilize my learnings for the growth of the organization and myself.

HANDS-ON EXPERIENCE

Full-stack Developer
Alumni Tracking System (Capstone Project)
Jan. 2023 - April 2023

I developed a system for administrator that organizes alumni data and allows the user to post an announcement of events. I also developed a portal site for alumni that contains announcement of events and mainly allows the user to update their employment status.

Tasks
- Created conceptual design of the project (prototype).
- Implemented the database structure with MySQL.
- Front-end Development with HTML, CSS, JS, Bootstrap.
- Back-end Development with PHP.
